

Year 4 TOPIC HOMEWORK Autumn 2

Potions

Choose **one** of these tasks to complete:

Design and make your own magical potion!

Make a home-made perfume or potion using things you find in the garden or around your house. Use a pestle and mortar to grind your ingredients together and add mix together with a liquid.

Think about the person you are making it for and write a description of the magical properties your potion has. Come up with a name related to the magical properties and purpose of your potion!

Bring your potion in, in a magical looking bottle!

Potion scrapbook

Do you know the history of potions? Research and create a scrapbook or fact file about how potions have been used throughout history.

How have potions used in the past influenced things we use today?

Include images and informative sentences in your scrapbook. Think about how you could present this in an inventive way.

Advertising campaign

Create a persuasive advertising campaign to promote Alice's 'Drink Me' potion. This could be a print, radio or even a TV advert! Hook your readers attentions by using an eye catching design and persuasive devices!

Lava Lamps

Create your very own lava lamp! Follow the instructions from the following website to show you how to make it. Create a photo diary with captions, explaining how you made it and what your final design looks like.

Since you are producing one piece of homework from the options above, we would like this to be presented to a high standard. We will see the final piece, but you will need to have done the following:

- Thorough research
- Made notes
- Planned your work
- Made a first draft
- Edited and improved your initial ideas
- Checked for spelling and grammar accuracy
- Completed a final piece with illustrations

To be handed in on Friday 9th December
