

Wednesday 13th September 2023

Dear Parents/Carers,

Following feedback from parents and teachers, we have conducted a review into how maths homework is set, accessed and assessed on completion. Due to technical limitations with using Teams in maths, we are moving to MyMaths, which is an interactive online homework website that aims to build pupil engagement and consolidate knowledge. Please note that weekly English homework will continue to be set on Teams.

This week, your child will be given a letter with their school username and password, as well as their personal username and password. Please support them at home to access the website: www.mymaths.co.uk, using their school login details to sign in and then using their personal login details in the 'My Portal' box. Their login details will also be stuck into their reading records.

If your child has been set a task by their teacher, it will appear in the 'Homework' area. There is a link to the lesson if they want to revise first, and a link to the homework itself. Each homework has two pages of questions and they must press the 'Mark it' button on both pages to complete the task. If your child wants to save their work to complete later, they can press the 'Save' button. Only their best score for each page of questions will be recorded and their teacher will be able to see how well they did and when they completed the task.

Homework will be set on a Friday morning, beginning 15th September, and will be due in the following Friday morning. Children who do not complete it will be expected to during their break time. Please be aware that for the first week or two, your child may be set homework from the previous year group as this is important for consolidation of key skills. If your child is in Year 1, they will not begin receiving maths and English homework until after half term, but they should be reading every day at home.

We hope that you find MyMaths helpful in enabling you to see how your child is progressing. Please do not hesitate to contact your child's teacher if you have trouble accessing MyMaths or if you have any questions or concerns.

Kind regards,

R. Cheetham
