In this unit, the children will create their own **screencast presentation** linked to healthy eating and their DT project.

Information Technology

Prior Knowledge
Children will already know how to safely use the **internet** to find information. Children have previously looked at **photography** and how to frame and edit a picture for purpose.

### Tips for effective presentations

- Keep your audience in mind
- Have a consistent design
- Plan
- Keep it simple
- Know your subject
- Rehearse
- Provide a clear structure

| Computing Key Vocabulary	
Audio	Sound that is recorded or created for use in a media file.
Copyright	A law that gives the owner of a written document, musical composition, book, picture, or other creative work. You would need to get the owner's permission if you wanted to use the file for your own project
Images	A picture or reflection of something produced by a device such as a photo or drawing.
Internet	A network, or system, that connects millions of devices (no longer just computers) worldwide.
Media File	Are pictures, music, audios, videos, and documents.
Narration	Words spoken over an image or video clip. Used to describe to the viewer what is happening.
Presentation	Combines different pieces of information that can be shared with a specific audience.
Search engine	A type of website that helps a computer user find information on the Internet.
Vlog and Vlogging	A video blog or video log.

SWITCHEDON Computing
